

Setting up online tips

The process for creating online tips is done in 3 steps: 1 Build the tip as a product; 2 create a One-Click offer around that product; 3 display your tips in the Shopping Cart.

Step 1. Build the Product.

a. Add a New Product

b. Give it a Name, Add a Photo (I recommend using the same image as a button in the cart) yours should match the below.

General

Name: Web Tip \$2 POS Name:
Up to 14 characters will display on a standard iPad

Step 3. Display on the cart page.

- a. Content Editor > General Pages > Cart (may have been renamed)

- b. You can design your own message, or you can use the code that has been provided to you in the Cart page. If using the code provided, select all the code and copy, click on the source button and paste the code in line 1.

The screenshot shows the Content Editor toolbar for a page titled 'Cart'. The 'Source' button is highlighted with a red box. Other buttons include Undo, Redo, Bold, Italic, Underline, Bulleted List, Numbered List, Indent, Outdent, Link, Unlink, and Help.

Shopping Cart

The screenshot shows the 'Site Pages' list in the Content Editor. The 'Cart' page is highlighted with a red box. A red arrow points from the 'Source' button in the previous screenshot to this 'Cart' page.

- c. Update the tip options, you need to update links with the One-Click-Offer URLs that you created in step 2. *Optional - replace the text with images and link those images to you One-Click-Offer URL.

The screenshot shows the Content Editor with a 'Link' dialog box open. The 'Link Type' is set to 'URL' and the 'URL' field contains the One-Click-Offer URL: <https://benkraemersandbox.uswest2.vin65dev.com/add-cart/2dollartip>. A red arrow points from the 'Source' button in the previous screenshot to the 'Link' dialog box.
